**Mr. Bob Sherby
Premier Property Maps**

Bob,

I would like to thank you for getting this mapping project off the ground and completed! As you know, the maps that the agents were using were outdated and not capable of using current digital and internet technologies.

I truly appreciate the fact that you took the time to collaborate your efforts with the needs of our local Multiple Listing Service and its members. Now, we can pass out these maps to our clients or direct them to your web site for their review.

The maps that you provide as well as the on-line versions are a resource that I will rely on for years to come. If you could please send me 100 maps for Port Angeles and for Sequim, I would appreciate it.

Sincerely,

A handwritten signature in black ink, appearing to read "T. Riley", written in a cursive style.
