Dear Bob

I would like to take this opportunity on behalf of our Sequim Association of REALTORS® to personally "Thank You" for the great Port Angeles and Sequim Maps. These maps are very easy to locate streets and other points of interest for our areas. These maps came to us at a time of growth on the Olympic Peninsula, Washington, specifically in Sequim and Port Angeles.

The maps are filled with interesting and useful information that our customers and clients find helpful, when consider the purchase of a home here. Furthermore, the "interactive home guide" refers on the maps where a business/contractor may be called, to assist regarding a specific area of concern on the property. Additionally, many fine businesses represented come highly recommended for their excellent customer service.

I hope you have continued good success with the map, and again "Thank You" for making it available to our communities, in this time of "Vigorous Growth" on the Peninsula.

Sincerely,

Bill Humphrey
