Mr. Sherby –

I understand, via my colleague Mark Shields at the Issaquah Library, that Premier Property Maps has offered to provide several boxes of your maps of Redmond & Kirkland to our libraries in those communities. Thank you very much! We get requests for maps at both libraries probably daily and I know our staff and patrons (as well as visitors to our communities) will be very grateful.

Mapquest, Google Maps & portable GPS systems are handy tools but nothing beats a good city map that shows the whole community in clear detail!

We will be sure to let folks know that the maps have been made available due to the generosity of the publisher & advertisers.

Thank you again.
