

P.O. Box 460 ~ Tracyton, WA 98393(360) 479-8384 ~ mail@Source-Map.com ~ www.PremierPropertyMaps.com

Dear Contractor,

Premier Property Maps (PPM) would like to refer construction and remodeling home remodeling work to your firm.

Please take a moment to learn how you can receive more business by using PPM real estate home improvement referral program.

Please understand that our work/service referral program is exclusive in that we only represent one vendor per remodeling category per city.

The Home Improvement Industry is growing faster than any other segment of construction. Most contractors tell PPM that they want to have as many real estate agents as possible referring their home improvement business exclusively to remodeling home owners. Because PPM is the only publisher that offers this work referral service to contractors, each individual local contractor category is taken rather quickly.

The benefits that PPM contractor clients receive are the result of an effective homeowner relocation program that has taken many years to develop by working closely with hundreds of real estate brokers, agents, REALTOR® and MLS associations throughout Washington State.

In a "nutshell", PPM offers the only effective program to have a multitude of real estate professionals and contractors represent your home improvement company to hundreds of homeowners who are **both** prepping their properties for sale and/or who are planning to buy a given property and want to explore a relationship with a contractor to up-grade the property.

To participate in this exclusive contractor work referral program a contractor must be appropriately licensed, bonded and insured in Washing State.

I hope you find the following links to our eMedia Kit™ informative.

If you would like our assistance in garnering additional work for your company please contact us by Reply email or call directly at (360) 479-8384.

Thank you.

Bob Sherby,
Publisher
